PROFILE

Results-driven IT professional with 5+ years of experience at Cognizant Technology Solutions, specializing in ETL Testing, ETL processes, batch job execution, production support, and database management (Oracle SQL, Teradata). Skilled in Informatica PowerCenter, orchestration tools, UAC, Jira, Jenkins, GIT/Bitbucket, UNIX, Qlik Sense, and PostgreSQL. Extensive experience in Banking and Retail domains, delivering efficient solutions, meeting SLA targets, and leading cross-functional teams.

TECHNICAL SKILLS

ETL & Data Integration: Informatica PowerCenter, Teradata, Oracle SQL

Workflow & Orchestration Tools: Orchestration, UAC, Mainframe CA Scheduler

Version Control & CI/CD: GIT/Bitbucket, Jenkins

Issue Tracking & Collaboration: Jira, ServiceNow

Operating Systems & Utilities: UNIX, Putty, WINSCP

Data Visualization & Reporting: Microsoft Excel, Qlik Sense

WORK EXPERIENCE

KBC Rainbow (Banking & Insurance) – Cognizant Technology Solutions

May 2023 – Present

- Managed 1000+ daily and monthly batch jobs using UAC and orchestration tools, ensuring 100% SLA compliance.
- Investigated non-triggered batch jobs, identified root jobs and downstream dependencies using PostgreSQL, and troubleshoot production issues efficiently.
- Tracked and resolved issues by identifying bugs in OT, creating Jira tickets, and performing data validation using Jenkins and PostgreSQL.
- Configured and optimized database space allocation in Teradata, maintaining system efficiency and improving processing speed by ~25%.
- Developed workflows and managed triggers to automate ETL processes, reducing manual intervention by 30%.
- Performed job failure analysis, performance tuning, and root cause analysis, improving system stability and minimizing downtime.
- Collaborated with cross-functional teams to quickly identify and resolve bugs, ensuring minimal production impact.

Mattel (Retail) – Cognizant Technology Solutions

June 2021 – May 2023

- Tested and validated ETL mappings and workflows in Informatica PowerCenter to verify accurate processing and anonymization of sensitive data fields.
 - Scheduled and monitored batch jobs using Mainframe CA Scheduler, ensuring timely resolution of runtime issues.
 - Extracted and transformed data from Oracle databases and flat files, storing results in optimized data marts for business analysis.
 - Conducted requirement analysis, test case preparation, data validation, unit testing and deployment.
-

KNOWLEDGE TRANSFER & LEADERSHIP

- Conducted Knowledge Transfer (KT) sessions for new team members across projects, including KBC Rainbow and Mattel.
 - Led daily huddles and presented project status to 10+ teams, ensuring cross-team alignment and clear communication.
 - Mentored team members on batch execution, orchestration tools, UAC workflows, and ETL processes, enabling smooth handovers and minimal downtime.
-

ONSITE EXPERIENCE

- Worked onsite at Czech Republic for 3 months, collaborating with business and technical teams to troubleshoot production issues, optimize batch workflows, and ensure SLA adherence.
-

EDUCATION

Bachelor of Science in Computer Science and Physics

SASTRA Deemed to be University, 2017 – 2020

CERTIFICATIONS

- Power BI Data Analyst (PL-300) – Microsoft, 2025
- Oracle Cloud Infrastructure 2025 Foundations Associate (1Z0-1085-25), 2024
- Informatica PowerCenter – Udemy, 2023
- SQL – Udemy, 2023
- Selenium Automation Testing – Test Leaf, 2021
